# VM III
SECUFENCE PREMIUM

SECUFENCE PREMIUM VM III

The SECUFENCE PREMIUM panel is the next step in the VM anti-climb and anti-cut fence panel program. The small mesh patterns of 76.2x12.7mm in combination with 1x4mm horizontal and 1x6mm vertical wire ensures a high security standard.
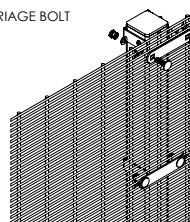

The fence system VM III is a very easy assembly and exceptional security solution. The special U-brackets system with carriage bolts, (shear)nuts and a small mounting plate makes installation very easy and flexible.

SECURITY LEVEL 7,5
