# VM II
SECUFENCE

SECUFENCE VM II

The SECUFENCE panel is the most economical anti-climb and anti-cut fence panel in the VM program. The small mesh patterns of 76.2x12.7mm in combination with 2x4mm wire ensures a high security standard.
The fence system VM II is a very easy assembly and exceptional security solution. The special clamp system in combination with 2 self-drilling (security) screws is a good and cost effective solution for installation.

SECURITY LEVEL 7
