# VM III
SECUFENCE

SECUFENCE VM III

The SECUFENCE panel is the most economical anti-climb and anti-cut fence panel in the VM program. The small mesh patterns of 76.2x12.7mm in combination with 2x4mm wire ensures a high security standard.

The fence system VM III is a very easy assembly and exceptional security solution. The special U-brackets system with carriage bolts, (shear)nuts and a small mounting plate makes installation very easy and flexible.

CENTER TO CENTER 2540mm
